NIST HealthCare Standards Landscape (HCSL)

- The HCSL provides a web framework for publishing and discovering healthcare standards information.
- HCSL information promotes healthcare standards:
    - Development
    - Harmonization
    - Implementation & Testing
    - Integration & Interoperability
    - Adoption & Use
- HCSL users and stakeholders include:
    - Standards Developers
    - Software and System Developers
    - System Integrators
    - Organizations adopting and using healthcare standards
    - Organizations building integrated systems based on healthcare standards
- HCSL was developed by NIST with support from the Agency for Healthcare Research and Quality (AHRQ).
- HCSL is publicly available at: **http://www.nist.gov/hcsl**
